Community Eye Care of Indiana Patient's Own Frame Agreement

Here at Community Eye Care, we take pride in our patient's care. We will take every precaution we can while modifying your frames for adjustments and new lenses. There is always a risk involved in modifying any frame. We do recommend that you purchase a frame with a warranty to insert new lenses into, if the frame was not purchased from us, we are still able to use the frame, we just can't be held responsible for any damage to the frame. By signing this agreement, Community Eye Care or the labs used by Community Eye Care are not held responsible for any damage to your frame.
